

BCBSWY OTC COVID-19 TESTS CLAIMS PROCESS

January 27, 2022

Dear Pharmacists,

As a valued BCBSWY partner, we want you to have updated information to maintain member expectations and for timely and accurate claims processing. Please ensure you are filing electronic claims to include the information below.

- The pharmacist NPI must be submitted in the prescriber field. If the pharmacist on duty does not have a NPI, the pharmacy NPI may be submitted along with a submission clarification code of “42” to avoid
- claim rejections for these OTC products.
- The Prescriber Type must be entered as “01” to indicate an NPI number and not as a DEA number for correct processing. Please review the list of covered OTC COVID-19 at-home testing products below to avoid claim rejections.

Covered Products

Product ID Qualifier 436-E1	Product ID 407-D7	Brand Name	Tests/ Pk	GPI Name

*New Covered OTC at-home testing product FAQ can be found at <https://www.bcbswy.com/over-the-counter-at-home-covid-19-tests/>. This list will be updated as tests are added to the covered list.

Additional Information:

For greatest compliance and reduced customer abrasion, pharmacies dispensing the OTC COVID-19 at-home tests should ensure the following:

- a. Submit claims via the online prescription claim system whenever possible.
- b. Verify and document at the time of dispensing that the Covered Person is not obtaining tests for employment purposes or for resale, which is not covered under the pharmacy benefit.
- c. Test kits should be submitted with no refills. Each dispensing event should have a new RX number assigned with no refills allowed.

We encourage you to submit the claims online to ensure members receive tests with no out-of-pocket costs. With your partnership, we can satisfy both the mandate and member expectations to reduce questions and customer time in filing paper claims for reimbursement.

If you have any questions, please don't hesitate to reach out to Provider Support at 1-888-359-6592.

Thank you,
